

# City Year Newsletter - April Edition

## THIS MONTH IN CLASSROOMS

Thank you all for celebrating Corps members and making March Appreciation Month so special for the CY team! As we jump into Spring, Corps members are focused on supporting students with academics and SEL by setting specific goals and further building on skills they've learned throughout the year. In addition, Corps members are thinking through their plans after their service year ends on June 16th. City Year staff will continue visiting classrooms to observe corps members for further support and development. Ask your corps member about the skills they're planning to use with students and their plans after City Year.

Check out what's coming up this month below.
